

My name is Rodney Parrish. I was referred to the Success Coach (Christine James) with the Strategic Initiative for Transformational Employment (S.I.T.E.) when I was at Isaiah House. She helped me get my resume typed up and helped me find a job at Toyota Tsusho. I didn't have any funds, and was ever so grateful that the S.I.T.E. program paid for two (2) weeks of my rent and helped me get boots so I could start work at Toyota Tsusho. Christine has been wonderful helping me along the way, checking on me each week to make sure if I need help with anything. Triangle Consulting Group was the temp service that I worked through and Amy was so kind and helpful as well.

I was hired permanently at Toyota Tsusho after three (3) months which gave me a little more money and great benefits. I began to save my money so I could purchase a car. Over the past 6 months, I've been given two (2) great raises and I was promoted which allowed me to gain an additional skill set. Working at Toyota Tsusho has contributed to helping me get my life back in order. I got my license back, purchased a very nice vehicle and took care of all my legal issues so I have eliminated various stressors in my life. I've been sober for a year now and I am thriving.

Last but not least, Toyota Tsusho was such a blessing giving me this opportunity and being a truly great employer, including Brian Fulcher in HR being so helpful and kind always.
